

Human Interaction. Secured.

We are committed to unleashing the innovative power of technology, so people everywhere can interact and transact safely and securely.

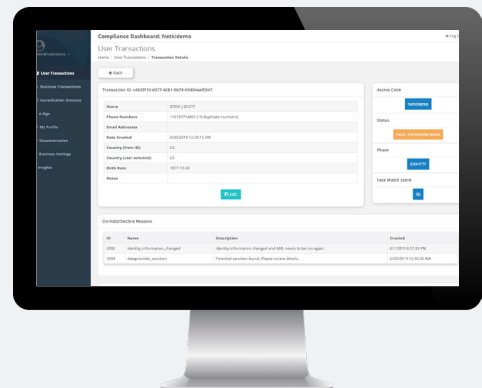

KYC and AML at Scale

Netki delivers the fast, easy onboarding experience customers demand, and dramatically reduces your cost.

Easy-to-use app and SDK – most customers complete ID validation in 30 seconds or less

Complete visibility into ID validation for all your customers.

The Customer Onboarding Challenge

ID validation obstacles limit automated solutions

- Inability to serve a multi-language, multi-ethnic customer base
- Can't verify global ID documents other than passports
- Failure to catch fraudulent account creation
- Reduced auto-read rates on ID's, increased cost

The Global Solution to Onboarding

Netki solves the ID validation challenge by delivering

- Validation of 2-3x more ID documents than competitors
- Most racially diverse solution for all skin tones
- Ability to read ID documents in all native character sets
- Onboarding experience available in 12 languages
- Pixel-by-pixel ID doc analysis to dramatically reduce fraud

Trust 2.0

Global ID Validation for the Digital Economy.

We're building the future of trust with advanced biometrics, a fully-automated, scalable solution, and deep industry knowledge, to ensure compliance in all your digital transactions.

Our Customers Speak

After having used Netki, the idea of doing ID validation manually is unthinkable."

-- Amanda Olson, Operations Analyst

Netki has made sure our KYC requirements succeed. Period.

-- Andy Grant, VP of Marketing
